GENERAL PURPOSE ROADCASES

Function, Availability, Price – the foundation of every case purchasing decision – but are these the true base? Does something more sit underneath what is seen on the outside? Do you see the decades of experience, the craftsmanship, the original needs that brought about designs that can withstand the constant toll of use, the elements, and the greatest factor – people?

Starting with the unseen, IYC has continued to build the foundation of what a road case should be – designed by the user, created by the user, and used by the user. Putting your faith in an IYC case is more than simply getting your equipment from one show to the next – it's continuing the tradition that was started, and bringing to life your visions.

We're more than wood, wheels, and metal – we're an investment in success.
You bring your vision – we'll put it "In Your Case."

FEATURED CASES

CUSTOM LINE

Custom cases shouldn't be a sacrifice – they are a necessity for proper protection and deployment of equipment. No one understands the need for custom cases like IYC.

What happens when your needs don't fit a traditional mold? You break that mold. We're here to help you push past normal boundaries and bring your vision to life. Whether custom sizes, rack inserts, compartments/drawers, or even fully integrated case solutions – We can design a case to fit your project.

THANK YOU!
